

Range Extension

AB05 Series:

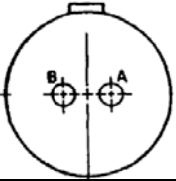

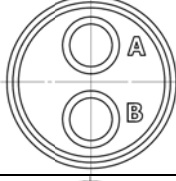

New Insert Arrangements

AB Connectors Ltd is pleased to announce additional insert arrangements added to the AB05 range.

The AB05 Series Miniature Bayonet Coupling connectors fully conform to the stringent requirements of BS 9522 F0017. This specification supersedes Defence Standard 59-35, which was itself based on MIL-C-26482 Series 1

Alternatively, AB Connectors can create specific arrangements to meet exact customer requirements.

08-02 Arrangement	Number of Contacts 2 Contact Size 20		Alternate Insert orientations			
			Angle in degrees			
			W	X	Y	Z
			58	122	-	-
18-02 Arrangement	Number of Contacts 2 Contact Size 8		Alternate Insert orientations			
			Angle in degrees			
			W	X	Y	Z
			consult factory			
22-04 Arrangement	Number of Contacts 4 Contact Size 8		Alternate Insert orientations			
			Angle in degrees			
			W	X	Y	Z
			consult factory			

Key Benefits

- Create a planform to suit your exact requirements, and reduce space envelope.
- Incorporate multiple contacts into a single connector to reduce assembly and installation time.
- Provide intermateability with MIL-STD-1669 arrangements.

Our advantage

We can provide mil spec or bespoke insert arrangements in short lead-times and without large MOQ's

Adding to the already extensive range of insert arrangements currently available, AB seeks to ensure continued support for our customers' needs.
