

Specialty Wire Harness Assemblies

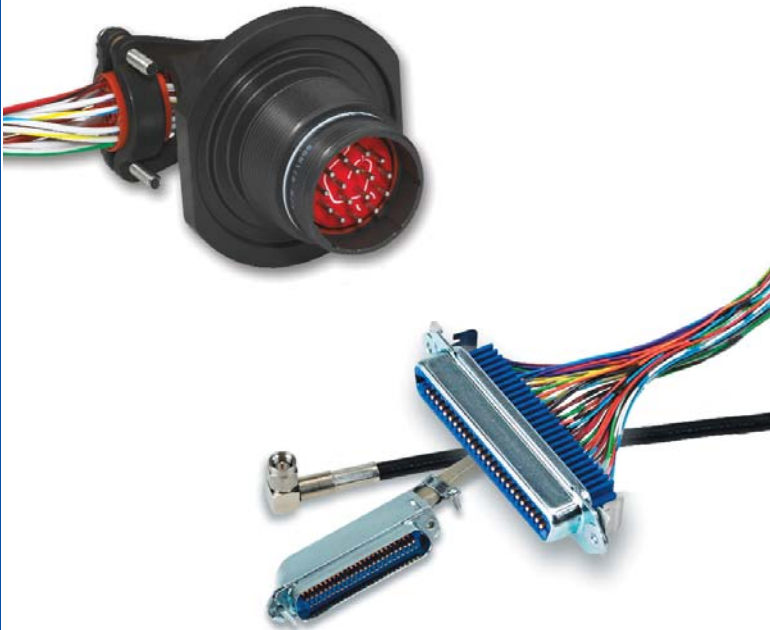

Cinch applies many years of expertise in interconnection technology to engineer and manufacture wire harness assemblies providing solutions to our customer's technical challenges.

Specialize in Rugged and Harsh Environmental Applications

- Transmission Actuators
- Fuel Tanks
- Shielded Cables

Unique Harness Solutions

- Connectors - Standard or Custom Designs
- Grommet and Pass Through Sealing
- Overmold / Insertmold

Capabilities

- Automated and Semi-Automated Wire Processing
- Individual Wire Seals, Flat Cables, Twisted Pairs, RF Coaxial, Multi-Conductor Shielded
- Electrical Verification - Continuity, High Potential, Insertion Loss, VSWR

Certified Quality Management System

- ISO9001
- QS9000
- AS9100
