

ELECTRICAL CONNECTORS WITH HIGH MODULARITY FOR SPECIAL APPLICATIONS

**QUICK LOCKING SYSTEM
INCREASED SECURITY
AND SAFETY**

DESIGN AND MANUFACTURING OF HIGH
RELIABILITY INTERCONNECT SYSTEMS
ACCORDING TO YOUR ELECTRICAL POWER
ARCHITECTURES

NEW MOBILITY

DEFENSE

Ergonomic locking system

Safety with IP2X protection level

Ultrawatts contacts electrical values are 20% higher than the other existing contact technologies

Connectors Identification by visual colored rings

No specific tools needed for wiring and maintenance operations

ELECTRICAL PERFORMANCES

- Continuous current from 120A to 1000A according to EIA-364-70 range from 120A to 1000A

MECHANICAL PERFORMANCES

Endurance from 500 to 1000 mating and un-mating cycles

ENVIRONMENTAL PERFORMANCES

- Operation Temperature : -55°C to 155°C
- IP 67 Waterproof

4 connectors sizes 300,400,600 & 700 according current rating and layouts

Several configurations
• From single power pole to hybrid power and signal

Shells versions:
Aluminium (standard),
Stainless Steel
and Plastic
